“Encouraging to Engaged” in CAT Research

The first day conference for cognitive analytic therapy practitioners hosted jointly by ACAT & Catalyse

Who is it for?

This day is for trainee and qualified CAT therapists at any stage of their career. Come if you

- ✓ want to get up to date with new research findings in CAT
- ✓ want to make better use of evidence in your practice
- ✓ are interested in being more research active
- ✓ are already involved in research

What is included?

Active researchers present findings plus their CAT insights on the process of doing research. You will receive support and advice for your own research engagement, whatever your ZPD.

Topics

- Qualitative and process research
- Quantitative analysis
- Engaging with research for the first time
- Research design
- Feasibility studies

Contributors

Alison Jenaway, Stephen Kellett, Peter Taylor, Katie Ackroyd, Mark Evans, Craig Hallam, Barney Dunn, Frank Margison & Glenys Parry
