

Understanding and resolving ruptures in the therapeutic relationship: a practical skills workshop.

Presented by Robert Watson, Clinical Psychologist & CAT Supervisor

Date: Thursday 4th April 2019
Times: 10am to 4pm
Cost: ACAT Member £110 (online) / £125 (invoice/cheque) | Non-member £125 (online) / £140 (invoice or cheque)
Location: Institute of Biomedical Science, 12 Coldbath Square, London, EC1R 5HL

Overview / aims

Decades of psychotherapy research demonstrates that the therapeutic relationship is fundamental to good outcomes in any therapy. Yet problems and ruptures to the therapeutic relationship are common and stressful, and they can present challenges to therapists across all levels of experience. Understanding and formulating problems in the relationship and making them the focus of collaborative dialogue are all essential components of successfully addressing them.

Is there consensus based on research regarding what are helpful and unhelpful therapist responses to ruptures or strains in the therapeutic relationship? Yes, there is, and interestingly, research suggests that experienced therapists tend to make more unhelpful responses even after intensive training on the subject. Making theory practice links throughout, this workshop will draw on the application of CAT tools and skills to focus on what helps and what does not in this workshop designed to help therapists work better when the therapeutic relationship gets stuck.

Learning objectives

- Provide a relational formulation of the therapeutic alliance with an emphasis on interventions as relational acts i.e. the principle that the same intervention can be experienced differently depending on client's characteristic ways of relating to themselves and others meaning for example, that a thought diary could be experienced as self-affirming by one client or controlling by another.
- To provide a transtheoretical model of rupture resolution as a tool for guiding the process of rupture resolution.
- Provide participants with practical skills in how to use CAT formulations as a resource for the purposes of therapeutic metacommunication i.e. creating a dialogue that fosters awareness and understanding of the relational patterns between you and your client, so they can be explored and resolved collaboratively.
- To help you reflect upon the role of vulnerability (both your client's and your own) in rupture events and their resolution.
- The workshop will provide expert teaching, and experiential exercises, allowing delegates to practice skills. Transcripts of rupture events and their resolution from Robert's clinical work provide real life examples of the theory practice links discussed.

This is relevant to the following groups:

This workshop is aimed at CAT therapists and trainees, as well as clinical/counselling psychologists and other multi-modal clinicians with some knowledge of CAT who wish to develop their skills in this area of work and/ or deepen their relational skills when using other modalities such as CBT.

Presenter

Robert Watson is a Clinical Psychologist with 17 years' experience and has extensive experience in public and private settings working with clients with complex psychological presentations. He is an accredited CAT therapist and supervisor and is the vice-chair of ACAT. This is the fourth run of this workshop following its successful first run for the West London Mental Health Trust Personality Disorder Service on 30th April 2018.

Feedback from previous workshop:

All delegates rated the workshop excellent or good

Some examples of what participants have liked so far:

"Discussion about metacommunication and Robert's willingness to share examples."

"Brave to offer transcripts. A really helpful day".

"Very clear guidance of how to notice, understand, and address ruptures. I have had previous lectures on this, but this was the most helpful in practical terms."

"Having more awareness of dynamics and the confidence to speak to clients about it"

"The clinical examples of how to tackle ruptures. Knowing that there is no set way to fix ruptures - it depends on the situation and your own judgement."

ACAT reserves the right to change programme content and presenters.

How to book

- Book and pay by personal credit or debit card online instantly through the ACAT web site: www.acat.me.uk/event/1027/
- By email attaching the booking form to: alison.marfell@acad.me.uk
- By post enclosing the booking form and a cheque to: ACAT, PO Box 6793, Dorchester, DT1 9DL

Enquiries

- Email: alison.marfell@acad.me.uk Telephone: 01305 263511
